## Introduction

VERY IMPORTANT BEFORE CONTINUING WITH FURTHER STEPS: It is critical that you complete a current backup. Task 1 below provides the instructions on completing the backup.

As **First National Bank of Gillette** completes its system conversion of our computer systems, you will need to modify your QuickBooks settings to ensure the smooth transition of your data. To complete these instructions, you will need your login credentials for **First National Bank of Gillette's** website. Please go to [www.fnbgillette.com](http://www.fnbgillette.com) to reset your credentials. On your initial login after conversion you will be required to change your password and you will be challenged with the security function requesting response via your phone selection. The temporary password will be your current password, not a new assigned temporary password. Access to the bank's web site will allow validation of your new credentials.

It is important that you perform the following instructions exactly as described and in the order presented. If you do not, your service may stop functioning properly. This conversion should take 15–30 minutes.

**NOTE:** This update is time sensitive and can be completed on or after **July 16, 2014**. Access will not be unavailable from approximately 6:00 PM July 10<sup>th</sup> through 6:00 AM July 16<sup>th</sup> through your Intuit application.
